SPECIAL FOCUS: PLANT SAFETY AND ENVIRONMENT
33 Building blocks of process safety
   H. Dutta
39 Built-up backpressure at the outlet flange of a pressure relief valve
   G. O. Cordero
47 Integrating fire and gas safety with process control systems:
   Why, what and how
   B. Crosse and M. Indiger
51 High-reliability organizing for a new paradigm in safety
   P. Hanik and R. Hausmann

MAINTENANCE AND RELIABILITY
55 Fouling mitigation strategies for process gas compressors in olefins plants
   Q. C. Eleng
61 Importance of welding procedure software
   A. Anwer
63 Amine pumps upgraded for improved operations and reliability
   D. Yusoff and R. Aroner

HEAT TRANSFER
67 Understand the installation of steam tracing for long-term application success—Part 2
   C. C. Hannah and T. W. Perry
71 Methodology for model-based, real-time prediction of corrosion in heat exchangers
   G. Hofer and E. Jeffer

SULFUR MANAGEMENT
S-74 Achieving operational excellence in sulfur management
   A. Kelkar and J. Panigrahi

PROCESS OPTIMIZATION
83 Reconstruct a vacuum column injector system using computer modeling—Part 1
   E. S. Telyakov, E. V. Osipov and D. Bugembe

CATALYST
89 More residue processing in FCCUs
   M. Genc, U. Karani, I. Emiroglu, I. Er and S. Kandaz

PROCESS CONTROL AND INSTRUMENTATION
93 The road to successful plant modernization
   H. Kang

DEPARTMENTS
4 Industry Perspectives
8 Business Trends
98 Onsite
100 Advertiser Index
101 Marketplace
102 Events

COLUMNS
7 Editorial Comment
   HP Top Projects awards are back!
13 Reliability
   Defining process hazard analysis and loss control advisory tasks.
15 Engineering Case Histories
   Case 103: Addressing heat exchanger tube leaks
19 Viewpoint
   New thinking to old problems
23 Africa
   New maritime emissions rules to impact Africa’s downstream sector
25 Maintenance
   Improving plant performance by changing a maintenance culture
27 Risk
   Measuring margins:
   Avoiding complacency when the market is stable
29 Viewpoint
   Reducing the sulfur shadow—Who pays the price?
